

STRATHCONA NEWS

LOCALS.

A quiet wedding took place at noon yesterday at the residence of Mr. and Mrs. Arthur Elliott, of Strathcona, when their daughter, Mayetta, was united in marriage to Mr. Ernest Freeman. The ceremony was performed by the Rev. H. B. Gordon, pastor of the Metropolitan Methodist church, in the presence of about 25 relatives and immediate friends of the bride and groom. The bride, who was unattended, looked charming in a dress of white satin, with pearl trimmings. Miss Irene Freeman, sister of the groom, acted as ring bearer. With all good wishes from their many friends the happy couple left on the afternoon train on a honeymoon trip to Ottawa, returning from thence they will reside in Edmonton, on Jasper avenue west. Mr. Freeman is a partner in the ownership of the mine of Fraser and Freeman, situated east of Strathcona.

The earthly remains of Mrs. Clark, wife of conductor George Clark, of the C. P. R., between Strathcona and Calgary, were buried in the Union cemetery yesterday, the funeral taking place from the family residence, 213 Thirtieth avenue west, at 3 o'clock. A beautiful wreath was sent by the Order of Railroad Conductors to decorate the grave, and many more friends of the bereaved family betokened their respect in the same way. The following gentlemen, among whom are old-time residents of this city, were the pall-bearers: Alexander Allan-Johnson, H. J. Sharpe, P. H. Brown, Archibald McLeod and Douglas McNeil. Conductor George Clark, husband of the deceased, and his children, Mrs. Marshall and a 12-year-old boy, have the sincere sympathy of all of friends throughout the province which Mr. Clark has made during his long service as conductor of the C. P. R.—Calgary News.

A Strathcona baseball team will go to Leduc today to meet the players of that town in a return game. Robert Ritchie, O. Bush and R. A. Hultbert have been elected directors of the Strathcona Cricket association for the present year.

LACROSSE.

EDMONTON WINS AT LACROSSE.

By five goals to two the Edmonton lacrosse team defeated Strathcona last night at the grounds of Hornor's rink in a return match. The score of the game was exactly the reverse of that played in Strathcona last week, and in the two games each team scored a total of seven goals. The game went in full four quarters on very rough grounds. Before play commenced a pair of the old rink fence had to be converted into goal posts. A goal crowd followed the game with interest.

The play was very fast considering the state of the field and the little practice the players have had as yet. Edmonton made the first tally in five minutes. Bobby Powers finding the net. Strathcona scored the second goal third minute and then Edmonton added four goals in succession. Scott, Turner and Jones were the only three of the old guard in the game for Edmonton. Strathcona had Malcolm Parsonson, Hammond, Wanda, Main and Fred Ritchie of last years team. Edmonton's five goals were scored by Powers (3), Turner (1), Scott (1).

The two games played so far between the teams of the Twin Cities have revealed a lot of good material out of which a team of first class calibre might be developed with practice. There is enough good material in Edmonton alone for a team which might hold its own with any in the south of the province, and the followers of lacrosse expect that either from the Edmonton players or from the players of the two cities, a team will be chosen which will stand a good chance of lifting the DeVeber cup, emblematic of the championship of the province and now held by Calgary. The Edmonton team will practice regularly at Edmonton and Strathcona respectively, and a number of matches will be played during the season.

The game last night was in charge of W. Powers as referee. Messrs. C. Britton and Brown were goal judges for Edmonton and Strathcona respectively, and Jack Lines, a steward of the game from Montreal, was timekeeper.

THREE DAYS TO TRAIN.

Vancouver, June 23.—James Findlay, brother of the president of the Montreal, has received word that the cup challenges will leave the east on July 2 and will come straight through to Vancouver, where they will remain during the competition on the coast. They will be quartered at the Badlam, and will

train at Brockton beach. The Montreal will have just three days to get accustomed before the first game.

A MANAGER'S TROUBLES.

Vancouver, June 23.—That the trouble of a manager of a professional lacrosse team is many, was never better shown than in the case of Don Jones, the chief coach of the Vancouver club, head coach over the salaries which are being paid the coaches here has led to a great deal of trouble in the camp of the Vancouver club. Following the game at New Westminster on June 4, in which Vancouver was beaten 10 to 4, Jones threatened to resign, several of his men, whom he believed did not attempt to do their best. Rumors of friction have spread, but the upshot developed when Dave Gibson, Tots Clarkson, Ernie Murray and George Matheson, went to Manager Jones and handed him their resignation. They had been receiving \$25 per week and demanded \$30 each. Jones refused to grant their request and as a result they jumped the team, and lost men refused to fill the vacancies. However, Jones has not yet given up, word of beating the champions and is still more fast men from the east. But Jones, the famous goalkeeper, has already arrived upon the scene, and Hogan and O'Leary, former stars of the Montreal Shamrocks, are on their way to the coast to play for princely salaries.

JARS AND JOINTS.

A delegation of captain Goldford were waiting at Reno for Fox Richard with an offer of \$200,000 gold receipts if the match is held at Goldford. An expert accountant, whether chartered or otherwise is not stated, and who claims to possess some inside information, has calculated that if Jeff Ritchie wins he will be richer by \$627,000, \$300,000 and that the loser, whoever he had victory for Johnson, will miss may be, will make \$25,000. It is, therefore, somewhat a case of "heads I win, tails you lose." There is something in it for the boys, no matter who gets the injured wrist.

The latest announcement is that the arena at Reno will seat 20,000 and can be erected in ten days. It will be smaller than the proposed ring accommodations at Fresno. Jeffries and Johnson both announce they are willing to fight anywhere Rick and wants them to appear—Jeffries may on a large if he has to.

Sumner skin trouble. Nevada fishing love are very explicit. In that state there is nothing to prevent a downy fish a day, taking place so long as a regular permit is secured for each contest. To examine are the Reno sports for the big fight that they agreed to build in arena free of cost and provide a house.

FENO FAVORS JOHNSON.

The announcement that the big fight Jeff and Rick will be held at Reno, Nevada, seems to enhance Johnson's chances of winning considerably.

The attack of the present training camp is on the 200 feet above the sea level, while Elmer and Brown, on three thousand feet. The change from the heavy air at the sea level to the rarified air of the mountain country affects the heart considerably, and Jeff is anxious to get accustomed as possible to the

new air conditions. In this case, Jeff is supposed to have the "higher" altitude.

The Johnson backers are jubilant over the change in so far as it affects the chance of the big fight. They believe that it will be harder for a man who has been out of the game as long as Jeffries to get his heart in shape to stand the strain of a continued fight. The aid of the higher altitude makes the heart action much faster and the lung power less, and Johnson's backers believe he will be able to acquire himself to the change much sooner than the former champion.

As a result, the Johnson backers declare they intend to double their bets if the battle is changed to Reno or Elmer.

FOOTBALL.

CROWD WAS SMALL.

Elmer football (at a twenty-five mile radius) for a long time, or else the sports fraternity in Edmonton takes little interest in the big athletic meet to be held in July and next month, is about the only conclusion one can come to after looking over the magnificent attendance of eighty at the benefit football match at Edmonton Park last night between the Y.M.C.A. and St. Georges teams, the gate receipts from which are to be devoted to defraying the expenses of the athletes who will represent Edmonton in the big provincial meet. The game was a top-sold affair, the St. Georges winning by a margin of 5-0.

Tonight's league schedule is in Division "A," when St. Georges meet Strathcona on the Second street grounds at 7:30. The St. Georges had no easy win when they started up against the boys from across the river a few weeks ago, and are confident of another win by a comfortable margin.

SHIRUBI WILL RUN AGAIN.
Toronto, June 23.—Alfred Shirubi has made out of his temporary retirement. The game tells Shirubi has tried out his game leg with a seven-mile spin and now he is out with a challenge to run the mile in two days. As a result, he has signed an agreement with P. D. S. John, the promoter of the Standard 15-mile professional race on July 10, to run twice.

CROPS BETTER THAN IN 1909.
Interesting Crop Report by Saskatchewan Department of Agriculture.
Regina, Sask., June 22.—The Saskatchewan department of agriculture through its crop reporting service has completed its estimate of the acreage sown in barley and flax, in the province this year. These figures were not included in the earlier reports of the estimated crop.

It was supposed that while the barley figures would not show a very large increase yet there would be a slight one, but the estimate shows it is a little less in 1910, while as expected

The estimated acreage sown to barley shows a decrease of 6,960 or 2.8 per cent. This compares with an increase last year of 14,000 acres of 5.1 per cent.

The estimated increase in acreage sown to flax in 74,990 acres or 274,980 acres or 23.2 per cent. In 1969 there was an increase of 34,000 acres or 20.4 per cent. The large increase in the acreage sown to flax this year is principally owing to the high price commanded in 1969. The average dates of the completion of seeding of the grain crops this year commenced

with last year are as follows:

1910—Wheat, May 2; oats, May 18;
barley, May 27; flax, June 5.

1909—Wheat, May 16; oats, May
30; barley, June 3; flax, June 7.

The standard condition of the crops
this year for the province is higher
than that of 1909 and the different
crop districts range fairly even, the
North Central district being the low-

rest. There the standard condition is reported as not being quite so good as at the same time last year. The grain is not so strong and vigorous owing to the cool dry weather, high winds and heavy frosts during the month of May, also to the damage done by the wire worm. The percentage for the province is as follows:

Wheat, 80 per cent.; oats, 92 per cent.; barley, 92 per cent.

THE HUNT FOR A WILL.

It Was Not Concealed in Joseph George's Gravel.

Kington, June 22.—It has been proved that the will of the late Jos. George, Wellington street, is not concealed in the casket of the deceased. At 7 o'clock this morning the grave in Cataquail cemetery was opened, the body was removed from the casket, and a careful search made for the document that was supposed by some of the relatives and friends to have been

secreted there. The grave was opened under order of Judge Price. Wm. Mundell, barrister, represented the widow, who gave her consent to the opening of the grave, and W. F. Nickle, K.C., and John Elmer represented the applicants. William Mundell, acting for the widow, will now proceed to apply for letters of administration to the estate, which is projected at \$47,000.

Those of the deceased's relatives and close friends who hold that the will is still in existence will take steps to bring about the administration of the estate as long as possible. They propose to make a further search for the missing document made about four years ago, and in which they claim that survival was proved. They do not believe that Mr. George deposed his will and was content to let things go as the law provided. Three years ago, they say, they met for a Toronto young man, whom he acknowledged as his son, kept him at his house and intimated that he was going to make a will. Without the will being found this young man will get nothing.

BITTER STRUGGLE TO KILL THE PRIZE RING

Very Few Places Remain Where Prize Fights May Be Held. The English Statute Forbids Brawls. Carry People to Severe of Such Consequences—Many States Closed.

By Frederic J. Haaklin.

The forthcoming pugilistic encounter between Jeffries and Johnson, and the protests which have been made against it everywhere, make interesting reading the history of the struggle against prize fighting in the United States. There are but few places left where a prize fight may be fought without coming into conflict with the law. The most notable legislation against prize fighting has been placed on the statute books of the various States since 1890. Up to a few years ago New York was a favorite battleground under the Marquis of Queensbury rules, but the same sentiment there which later was responsible for the anti-racing law, brought about the enactment of a law which has been intended to outlaw prize fighting at that state.

There are some men in high position who do not believe in the legislation against prize fighting. Theodore Roosevelt, a great champion of the rightness of the law, has said that the bout between Jeffries and Johnson is a matter of interest, and there is no doubt that if he could not see the fight he would go to it. When he rode up Pennsylvania avenue on the morning of March 6, 1904, to take the oath of office at his inauguration, he was surrounded by thousands of people who saw him with delight, and all his friends were glad to see him. He was surrounded by a two-hundred foot long line of people, and he was surrounded by a two-hundred foot long line of people, and he was surrounded by a two-hundred foot long line of people.

It is claimed by the friends of the prize ring that one of the reasons for the unpopularity of prize fighting today is the fact that in the old days the many are received a bad name which has clung to it to this day in spite of the vast changes that have come about in the rules and in the conduct of prize fighting. They assert that the present conditions under which championships are fought are productive of less harm to the public than even baseball. They point to the fact that the men of Sullivan, Corbett, Pittsman, Jeffries and Johnson, none of them had a more worthy or an more virtuous witness to the fact that they were prize fighters. It is claimed that when a man like Jeffries goes into the ring, he is perfectly trained and so, instead of being a gladiator, he is a professional athlete. A liberal application of which hand will remove all the traces of the gladiatorial contest in which he engages.

It always has been the boast of John L. Sullivan that he has proved himself a great friend of education. He declares that during his fight with Kilrain he made a great deal of money, every cent of which he spent in fostering the schools of Mississippi. As a matter of fact, it required all his winnings to keep him from serving a term in prison because of his fight with Kilrain.

Legislation of the states have enacted since 1890 laws on prize fighting. In 1890, it was in that year that Louisiana enacted its law, which is the most stringent in the list of statutes in force today. During the next year Arkansas, Tennessee and Texas passed legislation against prize

THE RING. KIDNEY ONLY FIGHT BOXING.

San Francisco, June 23.—The Kidney Only fight, which was held at the Athletic Club, was a very interesting one. It was a very interesting one. It was a very interesting one. It was a very interesting one. It was a very interesting one.

Consequently when I showed up yesterday with a patch of iodine over the joint, Jeffries insisted upon giving me a new one. He said, "I don't want to see you get hurt. I want to see you get a new one." He said, "I don't want to see you get hurt. I want to see you get a new one."

Prize fighting has figured in no small degree in the course of the development of the law. It has been a matter of interest to the courts, and it has been a matter of interest to the courts. It has been a matter of interest to the courts, and it has been a matter of interest to the courts.

A prominent New York politician has suggested a solution to the problem of prize fighting. He has suggested a solution to the problem of prize fighting. He has suggested a solution to the problem of prize fighting. He has suggested a solution to the problem of prize fighting. He has suggested a solution to the problem of prize fighting.

It is claimed by the friends of the prize ring that one of the reasons for the unpopularity of prize fighting today is the fact that in the old days the many are received a bad name which has clung to it to this day in spite of the vast changes that have come about in the rules and in the conduct of prize fighting.

It always has been the boast of John L. Sullivan that he has proved himself a great friend of education. He declares that during his fight with Kilrain he made a great deal of money, every cent of which he spent in fostering the schools of Mississippi. As a matter of fact, it required all his winnings to keep him from serving a term in prison because of his fight with Kilrain.

Legislation of the states have enacted since 1890 laws on prize fighting. In 1890, it was in that year that Louisiana enacted its law, which is the most stringent in the list of statutes in force today. During the next year Arkansas, Tennessee and Texas passed legislation against prize
